

## Credit Union Museum Creates Interest with New Display.

PHOTOS BY JEFF BAKER / IMAGE 4

### Project Summary

The idea of the Credit Union got its start in 1908 in Manchester, NH. Through generous donations, America's Credit Union Museum was born in 2002.

Working from a great design by Baily & Donovan Design, Image 4 scanned, proofed and printed nearly 200 graphics on our CSI LightJet and Ilford printers.

Three large wallpaper murals were installed in less than 24-hours by our install staff. Then, in four days we mounted, wrap-laminated, cleated and hung the display graphics. Image 4 production teams worked overnight, in our plant and on-site, to ensure completion for the Friday morning opening!

Image 4 takes special pride in supporting our state's historical resources, and this project is particularly fulfilling - for our clients, the patrons, and Image 4.

**Project Budget**

\$ 18,000
