

Banners for 2000 Campaign Debate on WMUR-TV

Project Summary

Sometimes our projects provide our clients with great national visibility! Such was the case with this TV production set for the 2000 New Hampshire Primary Presidential Debates.

Producers for FOX TV were seeking a local source of graphic support for the debates. They chose Image 4, in part because of our 5' Ilford Extreme banner printer. In less than three days we color proofed, printed, stitched and installed enough fabric graphics to fill the 40' wide set.

Image 4's speed, product breadth and expert team depth solved all the color, quality and deadline issues for this high profile client. Most importantly the candidates, the FOX network and New Hampshire's WMUR TV 9 presented a world-class, nationally recognized studio design.

Project Budget

\$ 9,000
